

Pratibha Patel

Software Engineer – ASP.NET Core .NET Developer

India • +91 9399598568 • pratibhap0205@gmail.com • linkedin.com/in/pratibha-patel05/ • https://pratibha-portfolio0205.netlify.app/

PROFESSIONAL SUMMARY

.NET Developer (3.7+ yrs) specializing in ASP.NET Core, MVC, Blazor, and EF Core for high-concurrency systems – shipped a multi-vendor booking platform with zero double-booking incidents under concurrent load, plus ERP and clinical LIMS platforms serving 500+ users. Strong in REST API design, SQL Server optimization, and owning modules end-to-end from architecture to production support.

PROFESSIONAL EXPERIENCE

Markstein Technology Solution Pvt. Ltd | Noida, UP

.NET Developer | Sep 2024 – Present

- Architected and shipped 6+ backend modules (vendor registration, listing, availability, booking, search, notifications) for a consumer event-booking marketplace, using EF Core to prevent double-bookings across concurrent vendor time-slot reservations.
- Built asynchronous LINQ-based search APIs enabling users to filter vendors by service type, pricing, and availability in real time.
- Delivered core modules (fee collection, exams, attendance, subject mapping) for an Enterprise School Management System serving 500+ students and staff.
- Designed and deployed Student Registration, Batch Management, Lecture Scheduling, and Performance Analytics modules for a Coaching Institute Management ERP; integrated WhatsApp API to automate parent notifications, replacing manual outreach to 100–500 parents per test cycle.
- Integrated Blazor and ASP.NET Core MVC front ends with C# backend logic for a Community Matrimonial & Engagement Platform, engineering LINQ + SQL Server search to filter 200–1,000 user profiles across complex demographic criteria.
- Resolved recurring high-priority production bugs across booking, attendance, and fee modules, improving day-to-day system stability and reducing repeat escalations.

Aon Digicon Pvt. Ltd. | Korba, Chhattisgarh

.NET Developer | Nov 2022 – Aug 2024

- Managed CRUD and business logic integration across SQL Server databases supporting flagship ERP and School Management System modules.
- Built a Blazor WebAssembly-based clinical LIMS platform, implementing Sample Registration, Sample Receiving, Diagnostic Data Entry, and automated Report Generation modules.
- Enabled automated instrument data capture for the LIMS platform, eliminating manual entry errors and improving clinical documentation accuracy.
- Reduced production downtime by an estimated 10–25% through systematic debugging and release maintenance support.

Education

Bachelor of Engineering(B.E.) - Computer Science and Engineering | 2015-2019

Chhatrapati Shivaji Institute Of Technology, Durg, Chhattisgarh

Technical Skills

- Backend Frameworks: .NET Core, ASP.NET Core MVC, Blazor (WebAssembly/Server), .NET MAUI, Web API
- Programming Languages: C#, SQL, JavaScript, HTML5, CSS3
- Database Management: MS SQL Server, Relational Schema Design, Query Optimization
- Core Competencies: REST API Development, Full-Stack Development, UI Integration, Debugging, Production Support, Performance Tuning
- Tools & Methodologies: Git, GitHub, Azure DevOps, Agile/Scrum, SOLID Principles

Projects

1. Digital Event Booking Platform | 12/2025-Present

.NET Core 8/7, ASP.NET Web API, Blazor, MS SQL Server, EF Core, LINQ

Consumer marketplace where vendors list time-based rental services; built concurrency-safe booking and real-time vendor search.

2. Enterprise School Management System | 04/2025-10/2025

ASP.NET Core MVC, C#, SQL Server, REST APIs

Centralized platform automating fee collection, exams, attendance, and subject mapping for 500+ students/staff.

3. Coaching Institute Management ERP System | 01/2025-04/2025

ASP.NET Core MVC, C#, SQL Server, REST APIs

Academic/financial ERP with WhatsApp API integration for automated parent notifications.

4. Community Matrimonial Platform | 09/2024-12-2024
.NET Core, ASP.NET Web API, EF Core, LINQ, MS SQL Server
Matrimonial platform with secure onboarding and LINQ-based demographic search across 200–1,000 profiles.
5. LIMS – Laboratory Information Management System | 02/2022-08/2024)
Blazor WebAssembly, C#, SQL Server, REST APIs
Clinical lab automation platform with sample tracking, diagnostic data entry, and automated instrument data capture.

Soft Skills

- Teamwork & Collaboration
- Root Cause Analysis
- Resilience & Continuous Learning
